

January 2022

DECLARATION

MediClim[®] is a copper tube produced by Serravalle Copper Tubes S.r.l. according with:

- **EN 12735-1** Copper and copper alloys - Seamless, round copper tubes for air conditioning and refrigeration – Part 1: Tubes for piping systems
- **EN 13348** Copper and copper alloys – Seamless, round copper tubes for medical gases or vacuum

MediClim[®] is made with copper phosphorus deoxidized, minimum 99.9% Cu (CW024A – Cu-DHP). The quality of the inner surface is obtained by technological processes and all tubes are closed at the ends by plastic caps to safeguard the internal cleaning of the tube until it is installed.

Due to these characteristics **MediClim**[®] is suitable for the following applications:

- Air conditioning systems and refrigerating gas conveying (e.g. R32, R410A, R407C).
- Transport of medical gas or vacuum.

(In compliance with local applicable regulations)
