

January 2022

DECLARATION

SCUDO[®] is a copper tube produced by Serravalle Copper Tubes S.r.l. according with:

- **EN 1057** Copper and copper alloys - Seamless, round copper tubes for water and gas in sanitary and heating application

SCUDO[®] is made with copper phosphorus deoxidized, minimum 99.9% Cu (CW024A – Cu-DHP).

Due to these characteristics **SCUDO**[®] is suitable for the following applications:

- Drinking water distribution
- Transport of liquid and gaseous fuels
- Heating applications

(In compliance with local applicable regulations)

During manufacture, the tubes are subjected to a treatment for passivation and stabilization of the internal walls, thus assuring absolute compliance to the potability parameters required by European legislation for transported drinking water (Directive EU 2020/2184).

Each individual tube shows the CE marking as prescribed by standard EN 1057 in accordance with EU Regulation 305/2011 for construction products (CPR).
